

Data Subject Access Request - MIAFTR

The Motor Insurers' Bureau (MIB) is the data controller for the Motor Insurers Anti-Fraud and Theft Register (MIAFTR) database, containing records of claims that have resulted in a written off or stolen vehicle.

If you have made a claim which has resulted in a written off or stolen vehicle, a record may exist on the MIAFTR database. The easiest way to request this information is to complete a Data Subject Access Request. To check if a specific vehicle is listed as written off or stolen, you will need to carry out an independent Vehicle Provenance Check.

Please note, this request will not return any information relating to your motor insurance policy, insurance claims or 'No Claims Discounts'.
