

MIB Navigate Supported Browsers

Final Version 1.0 – Updated for VS&TD Release

07 November 2025

Supported Browsers

To ensure Navigate runs smoothly and securely with all features, we support the following web browsers:

- Google Chrome
- Microsoft Edge (Windows only)
- Safari (macOS only)

Accessing Navigate

Please use the latest official version of one of the browsers listed above on a Windows or macOS device for the best experience.

Why Use a Supported Browser?

Using a supported browser guarantees:

- Regular security updates to help protect your data and privacy
- Optimised performance for faster load times and smoother interactions
- Full compatibility, with every Navigate feature thoroughly tested on these browsers

Important Note

Navigate may function on older versions or unsupported browsers (e.g., Firefox), but we can't guarantee the same level of stability, performance, or security.
